Portland, Oregon – July 25th, 2021 – The next step after Goosebumps, a brief dalliance into almost-terror that sidesteps into imaginative wordplay and panic.

A narrative essay about finding solace inside a fogbank, BONE DEEP AND WATERLOGGED gives its name to the title of the collection and sets a tone of impending dread for the rest of the works. What would you do if your world came slowly grinding to a halt miles off the Washington coast?

In OF MONSTERS AND BRAVERY, young Calum seeks to protect new sister Dahlia from the horrors lurking in the darkness of a mid-summer blackout. A flashlight is a sword to the shadows, but what happens when the sword breaks?

THE COSTUME EMPORIUM, located in the middle of suburban USA, is as unassuming as shops get. It's here that we find Ethan, working part-time at Dave's Costume Emporium, and dealing with having no customers. Until he does.

The loss of a loved one can be a challenging time for anyone, but in Charlie's case, it's more than that. SINNERS AND SAINTS AND SUITCASES takes a brief look into the aftermath of a house fire, a simple accident, and the consequences of a lie.

Finally, SLEEPWALKERS follows the main character as they follow their best friend Alex through an episode of sleepwalking through their apartment complex. Summer storms lurk on the horizon, and through their cloud cover, something otherworldly becomes a puppet master. Smashwords.com is the world's largest publisher of indie e-books.
